The background of the advertisement is a blurred photograph of an outdoor walk-through metal detector. A person is visible in the distance, walking through the detector. The detector's frame is dark, and a sign with the word 'GARRETT' in yellow is visible on the right side. The overall scene is brightly lit, suggesting an outdoor setting like a stadium or public event.

GARRETT

SECURITY SOLUTIONS

TRUSTED SECURITY SOLUTIONS BUILT FOR ACCURACY AND RESULTS

At Garrett Metal Detectors, we provide top-tier security solutions tailored to meet the unique needs of various sectors. Our advanced handheld and walk-through metal detectors are designed to ensure safety and protection across multiple environments. From healthcare facilities and industrial operations to schools and government buildings, our state-of-the-art technology helps safeguard against potential threats, ensuring a secure and safe environment for all. Discover how Garrett Metal Detectors can elevate your security standards and provide peace of mind.

The logo for Garrett, featuring the word "GARRETT" in a bold, yellow, sans-serif font. The background of the entire advertisement is a photograph of an outdoor security checkpoint. In the foreground, a man in a grey button-down shirt is walking through a metal detector. To his left, several event staff members in bright yellow-green shirts are working. One staff member is holding a tray. In the background, other people are waiting in line, and there are trees and a blue sky with clouds. The metal detectors have the "GARRETT" logo on top. The overall scene is a busy outdoor event.

Now with AI

Garrett has developed an advanced, proprietary AI security platform for metal detection using Machine Learning, and it's now on *Paragon*. This powerful new AI algorithm enables threat threat that is both more accurate and more adept at handling multiple targets than competing systems. For our end users, this means superior speed, superior confidence, and superior security results. Achieve a touchless security experience with higher security, lower disruption, and maximum flexibility with *Paragon*.

AI

PARAGON™

THE PINNACLE OF PERFORMANCE

Enter *Paragon*. For security supervisors unwilling to compromise on security results, Garrett's *Paragon* walk-through metal detector is a game changer. Powerful performance meets new heights of flexibility and ease-of-use in a fresh, sophisticated package.

THE PINNACLE OF PERFORMANCE

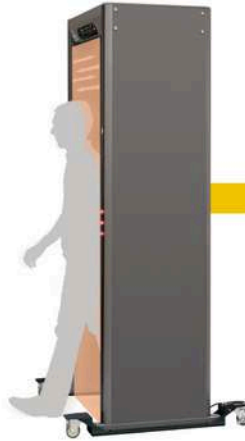

GARRETT™

Garrett Exclusive

66 Zones.

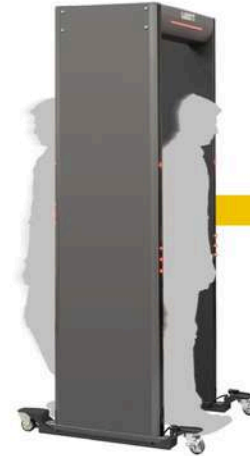

Granular awareness of alarm area top-to-bottom and left/middle/right is unmatched in the world of security metal detection.

Garrett Exclusive

Bilateral detection.

Provides evenly distributed detection, simplifies multi-unit setup, and achieves superior target analysis to single-sided detection.

Garrett Exclusive

Ambiscan™

Cut checkpoint footprint in half. Directional programs and sensitivity reduces operator fatigue and allows different detection targets on egress versus ingress.

IP65.

Exacting construction ensures all-weather performance and dust/water resistance.

Cellphone discrimination.

Optional settings allow cell phones to be ignored while still catching mass casualty weapons.

Zero Touch™.

NFC card reader allows secure settings adjustment without mechanical insertion, meaning less wear and fewer card replacements.

Integrated UPS.

Includes internally-mounted 30 minute emergency power ensures sustained operation in the event of accidental AC disconnect or power outage.

PD 6500i

Walk-Through Metal Detector

GARRETT

PD 6500*i*[™]

MEETS THE WORLD'S HIGHEST TEST CERTIFICATIONS

Garrett's *PD 6500i* is an industry leader with superior pinpoint technology and unmatched discrimination features. This detector has proven its effectiveness at moving high volumes of patrons through professional sporting venues and major international competitions, such as the Olympic Games, World Cup tournaments, and the Pan-American Games.

The *PD 6500i* has also been trusted to safeguard international airports, hotels, government buildings, and correctional facilities. With its advanced networking and ability to pinpoint targets in 33 detection zones, the *PD 6500i* is the walk-through of choice for security professionals worldwide.

GARRETT

International security standards

PD 6500i meets the world's highest test certifications, including the following international airports:

TSA
(U.S.
airports)

ECAC
(European
airports)

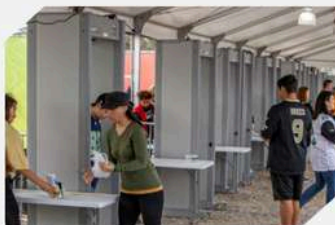

dgac
STAC
(French
airports)

Aena
(Spanish
airports)

CIAC
(Japanese
airports)

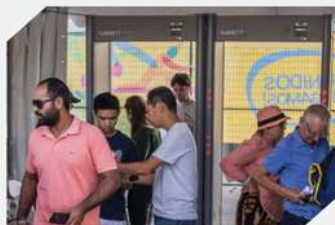

Department for
Transport
DfT
(U.K.
airports)

GARRETT PD 6500I™ ADDITIONAL FEATURES

OPTIMUM PERFORMANCE:

Featuring over 20 standard programs, it offers unmatched versatility for security screening. The design allows multiple units to be installed as close as 2 inches apart.

BILATERAL DETECTION:

With transmitters and receivers in each panel, the PD 6500i™ operates as two detectors in one. Scanning from both sides ensures superior detection, reducing the need for hand-held metal detectors.

DIRECTIONAL COUNTER:

Offers four settings for counting (forward, reverse, subtract in reverse, and bi-directional).

OPTIONAL NETWORKING ABILITY:

Manage walkthroughs individually or as groups and perform statistical analysis via network with the iC Module.

MULTI-BRAND COMPATIBILITY:

Designed to pair with existing checkpoints, it can operate alongside other brand units. Its advanced magnetic field technology supports multiple channels and offers 2,300 selectable operating frequencies.

SUPERIOR VERSATILITY:

Selectable settings designed for security checkpoints in airports, courthouses, schools, prisons, mass transit, facilities, special events, loss prevention, and other applications.

TAMPER-PROOF:

All settings are protected by a key lock and dual access codes, ensuring secure operation. Additional security is provided by a cabinet lock, preventing unauthorized access to cables, connectors, and electronic components.

ADVANCED BROADBAND DETECTION TECHNOLOGY:

Delivers exceptional target analysis, effective detection of ferrous and non-ferrous weapons, precise discrimination, and improved screening throughput.

PACING LIGHTS:

The entrance displays universal "wait" and "proceed" symbols for traffic control.

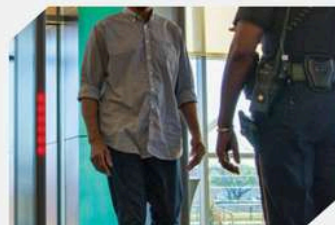

INTERNAL USB PORT:

Enables seamless software updates.

RANDOM ALARM FEATURE:

Offers the capability to randomly trigger alarms on a selected percentage of normal persons who do not otherwise alarm, with adjustable settings ranging from 0 to 50 percent.

ALARMS:

Features an adjustable audible tone and volume, accompanied by a bright LED visual indicator.

GARRETT PD 6500I WALK-THROUGH METAL DETECTOR

ACCURATE PINPOINTING.

Precise Detection: Enhanced full-body scanner detection coils provide uniform sensitivity and accurate pinpointing of objects.

Comprehensive Coverage: Effectively locate items across left, center, and right zones, ensuring thorough security screening.

INTERNATIONAL SECURITY STANDARDS.

Global Certification: Complies with leading standards, including TSA, ECAC, and more, ensuring superior reliability.

Trusted Worldwide: Approved for use as an airport metal detector, delivering exceptional TSA checkpoint screening.

PORTABLE PROTECTION.

Rapid Deployment: Features optional casters and a battery module for swift, flexible setup of screening equipment.

Easy Mobility: Designed for effortless relocation to meet changing airport security needs

ADDITIONAL FEATURES.

Superior Versatility: Over 20 standard programs and multiple settings to match required screening procedures.

Advanced Technology: Equipped with bilateral detection, directional counting, and integrated network management features.

GARRETT

GARRETT PD-6500I RECEIVES ECAC CERTIFICATION

PD 6500I™	
Detection Zones	33 zones (left, right and center); visual and audible alarms with a built-in dry contact alarm relay
Multi-Unit Synchronization	Synchronization with wired AC power lines or with manual frequency selection for wireless operation
Visual Displays	LED zone indicator lights on both panels. Pace lights on entry side only, with intuitive images.
Access Control	Eight-button keypad with numerical codes. Keypad lock to control access and to enable/disable the keypad.
Passageway Interior Size	Width 30" (0.76 m) Height 80" (2.03 m) Depth 23" (0.58 m) (32" versions are also available)
Overall Exterior Size	Width 35" (0.90 m) Height 87" (2.21 m) Depth 23" (0.58 m)
Shipping Size	Width 35.5" (0.90 m) Height 91.5" (2.32 m) Depth 6.25" (.16 m)
Shipping Weight	165 lbs. (74 kg)
Operating Temperatures	-4° F (-20° C) to +149° F (65° C); Humidity to 95% non-condensing.
Power	Fully automatic 100 to 240 VAC, 50 or 60 Hertz, 45 watts; no rewiring, switching or adjustments needed.
Regulatory Information	Meets international airport standards such as TSA, ECAC, STAC, AENA, CJAC, DFT. Meets additional standards and requirements such as USMS, NJ-0601.02, NILECJ. Meets Electrical Safety and Compatibility Requirements for CE, FCC, CSA, IEC, ICNIRP, IEEE.
Weatherproofing	Meets IP 55, IP 65, IEC 529 Standard for moisture, foreign matter protection
Construction	Attractive scratch and mar-resistant laminate. Detection Heads and Support: heavy duty aluminum.
Control Outputs	Solid state switches (low voltage AC or DC) for operating external alarms and control devices.
(optional) Remote Control	Desktop Remote Control with Zone Indication; personal computer with wired or wireless IC Module; or IR remote
(optional) Networking	Manage individual or groups of walkthroughs and perform statistical analysis of throughput with wired or wireless IC Module and client software.

MULTI ZONE WALK-THROUGH METAL DETECTOR

FAST, EASY, VERSATILE SECURITY

ACCURATE PINPOINTING.

Precise Detection: 20 zones provide exact locations of multiple objects simultaneously.

Comprehensive Coverage: Effectively locate items across left, center, and right zones, ensuring thorough security screening.

PORTABLE PROTECTION.

Rapid Deployment: Optional casters and battery module for quick setup and mobility.

No Wires: Easily move and deploy at various locations.

OPTIMUM PERFORMANCE.

Versatile Programs: Over 15 applications for diverse settings including schools, airports, and events.

Field Programmable: Environmentally protected for reliable performance.

HOW IT COMPARES WITH PD 6500I.

Detection Zones: Multi Zone has 20 zones, while PD 6500i offers 33 zones.

Synchronization: Both models synchronize with wired and wireless operations, but Multi Zone includes an auto frequency scan.

GARRETT MULTI ZONE™ ADDITIONAL FEATURES

OPTIMUM PERFORMANCE

More than 15 application programs engineered to address the needs of schools, airports, prisons, courthouses, special events, and other applications.

20 ZONE PRECISION

The Multi Zone's twenty zones provide precise location of one or more objects simultaneously.

DIRECTIONAL COUNTER:

Offers four settings for counting (forward, reverse, subtract in reverse, and bi-directional).

NETWORKING ABILITY

Manage walkthroughs individually or as groups and perform statistical analysis via network with iC Module.

AUTO-SCAN FUNCTION

The Multi Zone scans electromagnetic environment and selects optimal frequency for noise cancellation.

SUPERIOR VERSATILITY

Field programmable to allow system upgrades. Environmentally protected against wind, rain and dust.

ENHANCED ACCESS CONTROL

Tamper-free detector controls via a 5-digit alpha/numeric system that has 60 million code combos. Additional security measures include a programmable keypad restriction and switch secured in the lockable cabinet.

INTUITIVE MENU DESIGN

32-character menu prompts are easy to understand (i.e. no confusing codes or acronyms to memorize).

BRIGHT LED INDICATORS

Eye-level green and red status lights, and zone indicators are highly visible, even in direct sunlight.

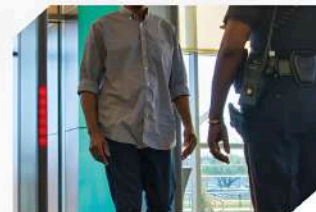

INTERNAL SD MEDIA PORT

For updating software.

ADVANCED SYNCHRONIZATION

Advanced circuitry allows multiple detectors to be installed as close as 2 inches from each other.

UNIQUE SLIDEBAR

Use to quickly adjust the value of a setting.

GARRETT

MULTI ZONE WALK-THROUGH METAL DETECTOR

Detection Zones	20 independent zones; visual and audible alarms
Multi-Unit Synchronization	Synchronization with wired AC power lines or with manual frequency selection for wireless operation. Auto frequency scan for wireless operation
Visual Displays	LED zone indicator lights on both panels. Status lights are individually configurable as pace lights, ready/alarm lights or disabled.
Access Control	Ten-button operation with full alpha-numeric 5-digit access code. Enable and disable keypad function with a rocker switch locked inside the detector head.
Passageway Interior Size	Width 30" (0.76 m) Height 80" (2.03 m) Depth 23" (0.58 m) (32" versions are also available)
Overall Exterior Size	Width 35" (0.90 m) Height 87" (2.21 m) Depth 23" (0.58 m)
Shipping Size	Width 35.5" (0.90 m) Height 91.5" (2.32 m) Depth 6.25" (1.16 m)
Shipping Weight	151 lbs. (68.5 kg)
Operating Temperatures	-4° F (-20° C) to +140° F (60° C); Humidity to 95% non-condensing
Power	Fully automatic 100 to 240 VAC, 50 or 60 Hertz, 40 watts; no rewiring, switching or adjustments needed. 1-hour backup battery included for the MultiZone.
Regulatory Information	Meets Electrical Safety and Compatibility Requirements for CE, FCC, CSA, IEC, ICNIRP and IEEE. Additional certifications pending.
Weatherproofing	Meets IP 55, IEC 529 Standard for moisture, foreign matter protection
Construction	Attractive scratch and mar-resistant laminate. Detection Heads and Support: heavy duty aluminum.
Control Outputs	Optional Relay module connected via RS 485 cable provides NO/NC relay contact
(optional) Remote Control	Desktop Remote Control with Zone Indication; personal computer with wired or wireless IC Module; or IR remote
(optional) Networking	Manage individual or groups of walkthroughs and perform statistical analysis of throughput with wired or wireless IC Module and client software.
Warranty	36 months, limited parts and labor

GARRETT

INNOVATIVE SECURITY PRODUCTS TRUSTED WORLDWIDE

Garrett's security solutions are built on decades of innovation and cutting-edge technology. From walk-through metal detectors to handheld scanners, each product is engineered for precision, reliability, and ease of use in demanding security environments. Trusted worldwide by airports, schools, events, and law enforcement, Garrett delivers advanced tools that keep people safe.

GARRETT GUIDE HAND-HELD METAL DETECTOR

ELEGANCE AND EASE-OF-USE.

Maximal Effect, Minimal Effort: Takes the hallmark simplicity of Garrett handhelds to the next level with one-button activation, three-button full control. More features and more accessibility than ever before.

Refined Construction: Features a sleek and modern aesthetic with IP 65 waterproofing and a microtextured dimpled rubber grip, all constructed to military spec drop test requirements.

HIGH SECURITY DETECTION.

7 Selectable Sensitivities: Lets you find your targets how you want, from focusing on large threats at low sensitivities to prison and clean-room level security at higher levels.

Address Interference Instantly: Eliminates electromagnetic interference from other handhelds by pressing the Offset Button and negates the impact of troublesome rebar with the Reduced Sensitivity Switch.

RECHARGEABLE AND LONG-LASTING.

Eliminate Waste: Comes with rechargeable lithium-ion batteries and a 3-foot USB-A to USB-C charging cable to reduce environmental waste and save on repeated battery purchases.

Powerful Batteries, More Uptime: Operates for more than 125 hours on a single charge and fully charges in only 5 hours.

FAST AND CONSISTENT SCANS

Large Scanning Surface: 8-inch scan length means better screening coverage, reduced operator fatigue, and simplified scanning patterns for rapid security checks.

Self-Calibrating Design: Eliminates manual sensitivity adjustments, ensuring consistent and reliable performance.

GARRETT

GARRETT SUPER SCANNER[®]V

THE WORLD'S MOST POPULAR HAND-HELD METAL DETECTOR

ULTIMATE SENSITIVITY.

High Precision Detection: Detects medium-sized pistol from 9" distance; large knife from 6"; razor blades and box cutters from 3" distance; foil-wrapped drugs and tiny jewelry from 1".

User-Friendly Alerts: Features sharp audible alarms and bright red LED indicators for clear detection signals.

EXTENDED BATTERY LIFE.

Long-Lasting Power: Operates up to 100 hours on a single 9V battery, ensuring prolonged usage.

Rechargeable Options: Optional rechargeable battery kit provides an eco-friendly power solution.

EFFICIENT AND FAST SCANNING.

Large Scan Surface: The 8-inch scan surface allows for quick and thorough detection, covering more area efficiently.

Self-Calibrating Technology: Eliminates manual sensitivity adjustments, ensuring consistent and reliable performance.

DURABLE DESIGN.

Rugged Construction: High-impact ABS case and weatherproof rubber handle withstand daily use and meet military drop-test standards.

Enhanced Features: Includes audible or silent search/vibrate alarm options and a momentary push button to eliminate interference from ambient metals.

HIGH-QUALITY & RELIABLE HAND-HELD METAL DETECTOR

The Super Scanner V is the most recognized hand-held metal detector in the world. Known for its high sensitivity and extreme durability, this security wand detects a wide range of metallic objects, including ferrous, non-ferrous, and stainless steel weapons.

In today's world, safety and security are of utmost importance. With a simple one-switch operation and multiple alarm modes, this portable metal detector is the trusted choice for security teams and law enforcement. It offers unmatched performance in various settings and maintains the highest standards of detection accuracy.

Three-color LED indication:

Green LED = ON

Amber LED = LOW BATTERY

Red LED = ALARM

Controls:

Power switch (Audible / Off / Silent)

Interference Elimination Switch

Tuning: Automatic

Sensitivity: Secure internal sensitivity adjustment

Audio Frequency: 2 kHz Warble

Operating Temperatures: -35° F (-37° C) to 158° F (70° C)

Width: 3.25" (8.3 cm)

Thickness: 1.625" (4.1 cm)

Length: 16.5" (42 cm)

Total Weight: 17.6 oz (500 g)

Shipping Size: 21" x 11" x 5" (53.3cm x 28cm x 12.7cm)

Shipping Weight: 3 lbs (1.4 kg)

U.S. Trademarks: 1,754,933 and 3,236,345

Battery Requirements:

one 9V (included). Provides up to 100 hours of normal operation.

Warranty: 3 Year, Limited Parts/Labor

Additional Details & Features

- ✔ **Security Compliance:** Trusted by security personnel worldwide for its reliability and advanced detection capabilities. It's the standard for global security protocols.
- ✔ **LED Indicators:** Equipped with a three-color LED system – Green for ON, Amber for LOW BATTERY, Red for ALARM – ensuring clear, immediate feedback during use.
- ✔ **Secure Internal Sensitivity Adjustment:** Ensures that settings remain stable, maintaining the integrity of the security screening process.
- ✔ **Momentary Push Button:** Allows operators to temporarily eliminate the detection of ambient metal, such as rebar and metal walls, to enhance the device's accuracy.

GARRETT

PRODUCT HIGHLIGHTS

GARRETT SUPERWAND[®]

UNMATCHED 360° DETECTION POWER.

Total Coverage: Detect **ferrous and non-ferrous metal** and stainless steel objects uniformly around the entire detection area.

Precision Pinpointing: Locate metallic objects accurately with the pinpointing tip

DISCOVER THE SUPERWAND'S ADVANTAGES.

Comfort and Control: Ergonomic design for easy, prolonged use during security screenings.

Advanced Features: Dual alarm modes, one-touch operation, and self-calibrating technology ensure peak performance.

ESSENTIAL ACCESSORIES FOR EFFICIENCY.

Eco-Friendly Power: Optional rechargeable battery kit for extended use.

Convenient Carrying: Optional ballistic weave holster offers easy portability at security checkpoints.

INDUSTRY LEADING PERFORMANCE.

Compliance with Industry Standards: Designed in full compliance with the latest security standards for airports, courthouses, and other high-risk settings.

360° DETECTION FIELD WITH PINPOINTING TIP

The SuperWand's 360° detection field provides uniform sensitivity and tip pinpointing to detect weapons and other metal objects with extreme accuracy.

ENHANCED DETECTION AND PINPOINTING OF TARGETS

The Garrett SuperWand represents high reliability and precision in metal detection for secondary screening. Designed with the needs of security professionals and law enforcement in mind, this hand-held metal detector wand is an essential tool for ensuring safety at airports and other security checkpoints.

The SuperWand's 360° detection field provides complete, uniform sensitivity around the security wand's blade and tip, allowing users to detect weapons, knives, and other metal objects with extreme accuracy. This allows security teams to perform thorough, targeted scans without missing any potential threats.

UNIQUE FEATURES

- ✓ **High Sensitivity:** Advanced metal detection technology for accurate identification of non-ferrous and ferrous metals.
- ✓ **Dual Alarm Mode:** Audio alert for clear detection or vibration mode for more discreet searches.
- ✓ **Efficient Power:** Up to 80 hours of operation with one 9V battery.
- ✓ **Easy Access Controls:** Self-calibrating technology with no need for adjustable sensitivity settings.
- ✓ **Simple, One-Touch Operation:** 3-way switch (on, off, silent) ensures quick operation for security personnel.

PRODUCT HIGHLIGHTS

GARRETT THD[®]

THE MOST RUGGED, COMPACT WEAPON DETECTION SYSTEM ON THE MARKET.

UNMATCHED 360° DETECTION POWER.

Full Coverage: Detect metal objects and potential threats with uniform sensitivity around the entire detection area.

Pinpoint Accuracy: Precisely locate metallic objects in real-time using the pinpointing tip.

DISCOVER THE THD'S ADVANTAGES.

Rugged and Compact: Durable design suitable for weapon detection in school buildings, theme parks, police stops at sporting events, corporate events, and more.

Advanced Features: Silent vibrating alarm and built-in LED flashlight provide discreet, reliable performance in all conditions.

ESSENTIAL ACCESSORIES FOR EFFICIENCY.

Eco-Friendly Power: Rechargeable battery kit for long-term weapon detection.

Convenient Carrying: Ballistic weave holster – easy portability and quick access for security teams, police officers, and law enforcement.

GARRETT

360° DETECTION FIELD WITH PINPOINTING TIP

The THD's 360° detection range ensures comprehensive coverage, allowing security personnel to detect metallic objects from all angles. The pinpointing tip helps detect weapons and other threats with extreme accuracy and precision, while also minimizing false alarms.

KEY FEATURES OF WEAPONS DETECTORS

- ✓ Ultra-sensitive response to metallic objects.
- ✓ Accurate detection of all ferrous, nonferrous, and stainless steel weapons, contraband, and other dangerous items.
- ✓ Powerful 4-inch length, 360° detection area.
- ✓ Silent vibrating with Red LED alarm indicator.
- ✓ Bright LED flashlight for low light and night operations. Useful for scanning IDs and for screening pockets and handbags.
- ✓ Sealed waterproof construction.
- ✓ High-impact case with molded rubber grip. Exceeds Mil-Std-810F (drop test) Method 516.5, procedures II.
- ✓ Easy ON / OFF battery cover.
- ✓ 9V battery (included) operation.
- ✓ Ballistic weave holster (included): mounts easily on a belt or in the car.

GARRETT

COMPREHENSIVE WEAPONS DETECTION TECHNOLOGY

RUGGED, HIGH-IMPACT CASE WITH WEATHERPROOF RUBBER GRIP.

Exceeds Mil-Std 810F (drop test) Method 516.5, procedure II.

The THD weapon detector offers reliable security solutions for law enforcement, school districts, and security professionals on the go. Its 360° detection field ensures no potential threat is missed, providing peace of mind in high-risk areas like police stops, bars/clubs, and mass transit environments like subway stations.

Designed to meet the rigorous demands of the security industry, this metal detector offers high detection with a low profile. With the THD, you can detect metal objects like guns, knives, and contraband with extreme accuracy, upholding public safety as a top priority.

GARRETT

Operational Test Piece (OTP)

The **Operational Test Piece (OTP)** is manufactured by Garrett to simulate in size, shape and composition the smallest forbidden object (weapon) usually sought by metal detectors. This OTP was made to specifications of the U.S. Federal Aviation Administration. It is important to understand that test pieces can come in various sizes, shapes and compositions, depending on the calibration requirements of individual screening installations. This particular Garrett OTP is designed to simulate various weapons, including firearms and larger knives.

The Pocket Item Container solves the problem of where pocket items can be placed when an individual is passing through a walk-through metal detector. Designed specifically for use with metal detectors, it is large enough to hold all the pocket items (keys, coins, calculators, cell phones, etc.) carried by most of those who will be inspected. The Garrett container, which is made of a semi-transparent plastic material, is also proper depth for holding all pocket items securely while making see them easily accessible after the inspection process.
